

The best business broadband you've never heard of.

For businesses that rely on enterprise-grade broadband for real time services such as VoIP, cloud computing, streaming media, video conferencing, and interactive applications, Skyriver Enterprise is the smart choice. Consider these few key specs: symmetrical bandwidth scalable to GigE, guaranteed 99.99% uptime as well as extremely low latency and jitter. Plus, it is engineered and supported by the broadband experts at Skyriver.

Skyriver ENTERPRISE™

- Guaranteed symmetrical bandwidth, scalable to GigE
- Provisioned in as little as a week
- Easy Ethernet handoff
- Safe and secure
- Industry-leading SLA
- Knowledgeable 24/7 customer care that's easy to reach

*Robust
Dependable
Flexible
Affordable*

Skyriver ENTERPRISE™

Brilliant performance and outstanding reliability, 24/7.

A fixed wireless, microwave-based service, Skyriver Enterprise is engineered for performance. Our carrier-grade network utilizes multiple layers of redundancy, Gigabit IP backhaul and backbone connectivity, combined with advanced monitoring, security, and performance-enhancing protocols. Skyriver Enterprise is provisioned in as little as a week, and connects effortlessly to your LAN with an Ethernet RJ-45 interface. With so many distinct advantages, it's easy to see why IT savvy companies are moving away from traditional wired services like fiber, EoC and legacy copper circuits, and making Skyriver their preferred business ISP.

The Intelligence behind Skyriver Enterprise

We are a highly specialized, engineering-driven company. We own and operate a carrier-grade IP network that we designed and built right from the start. As broadband specialists, we employ expert knowledge, and remain steadfast in our commitment to R & D and rigorous testing of our cutting edge technology platforms and operating procedures, to guarantee industry-best solutions. Our Network Operations Center (NOC) safeguards performance with 24/7 proactive monitoring. Our industry-leading Service Level Agreement (SLA) gives you peace of mind about the quality of your broadband—the life-blood of your business.

To learn more about Skyriver Enterprise, visit www.skyriver.net, or call a Skyriver representative at 866-759-7483.

We haven't had to worry about our Skyriver broadband service since we set it up. It just works, which is something every IT person wants. One of the main reasons we went with Skyriver was their quick install. We were able to be up and running within a week, which is impossible with other Internet service providers. Our Skyriver business broadband service has met all of our expectations."
